Winter appeal for refugees

We say enact Dubs now

STAND UP TO RACISM

Stand Up To Racism and Care4Calais are working together to organise an winter appeal for refugees still living in Calais and it's surrounding area, or in Paris and Brussels.

The destruction of the "jungle" camp by French authorities has not ended the refugee crisis. It has worsened conditions for refugees, including unaccompanied children.

As the weather gets harsher we want to make sure that those who have fled poverty and war do not face even worse conditions in France.

The British government has failed to carry out its responsibilities to refugees. It has taken only a fraction of the unaccompanied refugee children agreed to under the Dubs amendment.

While making donations to help refugees we call on Theresa May to act responsibility and take in the 3,000 child refugees suggested by Alf Dubs – himself a survivor of the Holocaust thanks to the Kindertransport.

We are organising a delegation to Calais to deliver solidarity on Sunday 10 December.

If you can donate online, the charity benefits from tax relief. Please donate at: care4calais.org

Please make any donations by cheque payable to 'Care4Calais'.
